

# Resource Conservation and Recovery Act Hazardous Waste Part A Permit Application (Form 8700-23)

The Resource Conservation and Recovery Act (RCRA) requires anyone who owns or operates a facility where hazardous waste is treated, stored, or disposed to have a RCRA hazardous waste permit issued by the U.S. Environmental Protection Agency (EPA). The permit application is divided into two parts, Part A and Part B. The Part A application is submitted on a designated form, EPA form 8700-23, and requires basic information about the facility, while the Part B application is submitted in narrative form and is often lengthy.

EPA consolidated all RCRA Subtitle C Reporting Instructions and Forms into one PDF. Below is an excerpt of the full document containing only the information pertinent to the Part A application:

- Introduction

## **Do you need help with this form?**

Please contact your state or, where appropriate, regional representative. Contact information can be found on there Find Your State Contacts webpage  
<<https://rcrainfo.epa.gov/rcrainfoprod/action/public/public-site/state-contacts>>.

- RCRA Hazardous Waste Part A Permit Application
  - Authorization
  - Introduction
  - Determining if You Must File
  - Filing a Hazardous Waste Report
  - Instructions for Filling out the Hazardous Waste Part A Form
- Other References and Code Lists
- Hazardous Waste Part A Permit Form

 **Hazardous Waste Part A Permit Instructions and Forms Only (pdf)**
