Hi Nathan,

Just wanted to check-in on the cumulative projects list. Were you able to verify any updates to the previous list?

Best,

Sabrina Marquez, MS | Environmental Planning Analyst

Good afternoon!

We are having some difficulty gathering a list of recent projects to include as part of the cumulative analysis. Initial findings point towards there being no updates to any previous list but I am working to verify that information.

When evaluating cumulative impact, we only consider formal applications for the review. We do not include PreApps, consultations, or other similar light information based applications.

Apologies for how long this is taking, hope to button this up soon!

Hello Nathan,

Thank you for taking my call today and reviewing the attached list of county projects for the Barstow International Gateway (BIG) Project. Please review the attached table and confirm if the list of projects within the vicinity of the Project site is still current and accurate. Additionally, would you please confirm if the projects that are considered part of the Cumulative Projects List are only projects that have submitted a formal application or do projects that may have other actions, such as pre-meetings, formal inquiries, etc., also be considered as part of the cumulative list?

I appreciate your assistance on this matter.

Thank you,

Sabrina Marquez, MS | Environmental Planning Analyst
