Uncompromised

Konecranes RTG cranes are designed for space-saving container terminals requiring top container handling performance. They can be configured with spans up to eight container rows wide plus truck lane, stacking containers up to 1-over-6 high, with a lifting capacity under spreader of up to 65 t. They are equipped with the latest Core of Lifting components (gear reducers, motors, controls). They are available with diesel, hybrid, fully-electric or battery power, Active Load Control which eliminates container sway, and a full range of Smart Features.

Here is the story of Grupo CICE Mexico and Konecranes, together living through the test of time. CICE has a mixed fleet of Konecranes RTGs, older and new units, which is working very well at their new terminal in the Port of Veracruz. They also have Konecranes Gottwald mobile harbor cranes and Konecranes lift trucks, and also use Konecranes Port Services.

The most silent Rubber-Tired Gantry Crane (RTG) in the world - Highland Spring
