Recent and historical SIP activity for 8-hour ozone in the Western Mojave Desert and the former Southeast Desert Modified Air Quality Management nonattainment areas. The Western Mojave Desert Ozone Nonattainment Area consists of the Antelope Valley portion of Los Angeles County and the southwestern portion of San Bernardino County. The Antelope Valley Air Quality Management District (AVAQMD) has jurisdiction over the Los Angeles County portion, and the Mojave Desert Air Quality Management District (MDAQMD) has jurisdiction over all of San Bernadino County including the portion within the Western Mojave Desert Ozone Nonattainment Area.
