

SERVICE ZONE

FP-5

In 2018, the Service Zone FP-5 was expanded to include the geographic areas served by the SBCFPD but not yet included in the FP-5 zone. This expansion resulted in the FP-5 special tax applying to properties in the existing and expanded geographic areas.

Service Zone FP-5 special tax revenue provides fire, rescue & EMS services with professional firefighters, in addition to many specialized services including, but not limited to, hand crews, dozers, and fire prevention officers.

Service Zone FP-5 provides SBCFPD with revenue to maintain its current level of service.
