Appliance Efficiency Proceedings - Title 20

Appliance Efficiency Proceedings - Title 20

Appliance efficiency standards must be technically feasible, be cost-effective, and save energy or water. In the pre-rulemaking stage, California Energy Commission staff and stakeholders develop a proposal. Public comment is gathered on the proposal during the rulemaking. Compliance of the standard is monitored after adoption.

RELATED INFORMATION

Appliance Efficiency Regulations - Title 20

Setting minimum efficiency levels for energy and water use in products produces significant savings without affecting the usefulness of the products.

Modernized Appliance Efficiency Database System Login

All appliances regulated under Title 20 must be certified to the Energy Commission using the database system.
